ARTISANS

We represent the work of a diverse collective of women, with a wide variety of socio-economic circumstances. The thread that ties them all together is their exceptional talent.

The Wee Souk

BESPOKE RUGS

Tunisia's rich and diverse culture is reflected in their tradition of rug making. We currently buy wool flat lay rugs called 'margoum' from women in the south. Available in a variety of size and colours, typically with geometric patterns.

GRASS MIRRORS AND LIGHTING

Handwoven using naturally occurring grasses which are soaked, dried and then used for decorative and practical uses.
